

**AYAA TECHNOLOGY CO.,LTD**  
**PCM Specifications**

**Model: PCM-L12S20-H83 (LI-10S20A) ver: A**

| Test item (Test at normal temperature 25±2°C ) |                                                                                | Criterion                        |
|------------------------------------------------|--------------------------------------------------------------------------------|----------------------------------|
| Voltage                                        | Charging voltage                                                               | DC: 42V CC/CV<br>(4.2V/Cell) 10S |
| Supply Current                                 | Normal operating mode current: Fuel gauge in NORMAL mode. ILOAD >Sleep Current | ≤50uA                            |
|                                                | Maximal continuous charging current                                            | 20A                              |
|                                                | Maximal continuous discharging current                                         | 20A                              |
|                                                | Balance current for single cell                                                | 42±10mA                          |
| Over-charge Protection (single cell)           | Balance voltage for single cell                                                | 4.2±0.05V                        |
|                                                | Over charge detection voltage                                                  | 4.25±0.05V                       |
|                                                | Over charge detection delay time                                               | 0.5S—2S                          |
|                                                | Over charge release voltage                                                    | 4.15±0.1V                        |
| Over discharge protection (single cell)        | Over discharge detection voltage                                               | 2.75±0.05V                       |
|                                                | Over discharge detection delay time                                            | 0.5S—2S                          |
|                                                | Over discharge release voltage                                                 | 3.0±0.1V                         |
| Current protection (Battery pack)              | Charge Over current detection current                                          | /                                |
|                                                | Detection delay time                                                           | /                                |
|                                                | Discharge Over current detection current                                       | 60±10A                           |
|                                                | Detection delay time                                                           | 5-60mS                           |
|                                                | Release condition                                                              | Cut load, Auto Recovery          |
| Short protection                               | Detection condition                                                            | Exterior short circuit           |
|                                                | Detection delay time                                                           | 200-800us                        |
|                                                | Release condition                                                              | Cut load                         |
| Resistance                                     | Main loop electrify resistance                                                 | ≤20mΩ                            |
| Temperature                                    | high temperature discharge protection                                          | 65°C                             |
|                                                | Operating Temperature Range                                                    | -40~+70°C                        |
|                                                | Storage Temperature Range                                                      | -40~+125°C                       |

SIZE: L76 \*W65 \*T12 mm

NTC: /      Temperature switch: 65°C (the batteries temperature)      Weak current switch: /      Activation Method:/
